TELECOMMUNICATIONS AND RADIO ENGINEERING

CONTENTS FOR 1973

Number 1

	Page English	Russian
PART 1 TELECOMMUNICATIONS Volume 27		
AUTOMATIC SWITCHING		
L. Ya. Misulovin: A System of Quasi-Electronic Automatic Telephone Offices ...	1	10
V. Z. Ravich: Reliability of the Logical Blocks of Switching System Control Devices ...	5	16
O. M. Bakushinskaya and M. N. Stoyanov: Method of Calculating the Probabilities of Delay of Speech Information ...	10	20
MULTICHANNEL COMMUNICATIONS		
I. L. Nepomnyashchiy and V. G. Yampol'skiy: A Method of Increasing the Efficiency of Radio Relay Link Antennas ...	13	24
B. S. Nadenenko and L. S. Tartakovskiy: Crosstalk in Waveguide Channels of Radio Relay Trunk Lines ...	18	30
MULTICHANNEL WIRE COMMUNICATIONS		
P. M. Todorov, T. A. and L. T. Kim: The KR (12 + 12)/24 Multiplexing Apparatus for Cable and Radio Relay Communication Lines ...	23	36
V. I. Zhukov, V. I. Mikhalevskiy and V. A. Rymsha: Measurements of Group Delay Time Characteristics of Communications Channels ...	30	44
WIRE BROADCASTING		
A. M. Kopylov: Investigation of Interference Generated by Power Amplifiers in a Three-Program Broadcast Network ...	35	49
A. Ya. Vol'skiy and S. L. Mishenkov: Investigation of Interference in Broadcast Channels of Multichannel Communications Systems ...	37	52
V. B. Bulgak: Improvement of the Efficiency of Sound Systems ...	41	55
DATA TRANSMISSION		
B. M. Chernobyl'skiy and N. A. Berkman: Effect of Additive Interference on Digital Data Transmission ...	42	57

CIRCUIT THEORY		
N. I. Zhivitsa and A. A. Lanne: Synthesis of Amplitude-Phase Correction Networks	46	61
E. V. Zelyakh and V. A. Kisel': Practical Application of the Characteristic Parameters of a Four-Terminal Network	52	66
D. O. Melkumyan: Determination of the Stability of Active Electrical Networks Using the Delay Function	57	71
PART 2 RADIO ENGINEERING Volume 28		
L. S. Gutkin: On the Limiting Advantage of Combining the Outputs of Data Extraction Circuits under Wide-band Gaussian Noise Conditions	60	1
V. A. Simakhin: Nonparametric Signal Detectors When the Signal Samples are Dependent	66	9
I. A. Golyanitskiy: Estimation of the One-Dimensional Probability Distributions of Modulated Signals	72	18
G. I. Tuzov and B. I. Glazov: Optimal Filtering of Digital FM Signals	78	26
A. S. Skryabin: The Frequency Dependence of the Dependence of the Depolarization Factor	82	33
B. M. Mashkovtsev and K. A. Tkachenko: Frequency Characteristics of Strip-Line Loop Directional Filters	85	37
E. V. Avdeyev and V. I. Potapova: Calculation of the Parameters of Screened Strip Waveguides with Two Layers of Dielectric	88	41
V. S. Andreyev, V. I. Popov and A. Ya. Fedorov: Analysis of an Oscillator Based on a Chain of Negative Impedance Devices	92	47
G. B. Al'tshuller and N. N. Elfimov: Features of the Analysis of an FM Crystal Oscillator at High Modulating Voltages	100	58
B. P. Terent'yev and A. M. Tenyakshev: Experimental Study of a Television Transmitter with Amplitude-Modulated Coupling	104	62
V. N. Zhemchugov and Yu. V. Markov: The Tolerable FM Interference Level at the Input of an FM Receiver Frequency Converter	104	66
V. P. D'yakonov: Design Principles for Controlled Pulse Circuits Based on Devices with an S-Shaped Current-Voltage Characteristic	110	74
B. A. Varshaver: Determination of the Main Parameters of a Pulse Amplifier	113	79
V. I. Zakharov: Parasitic Amplitude Modulation in Wide-Band FM Reflectrometry	114	83
V. B. Minukhin: Magnetic Recording Characteristics in the Long-Wave Band	118	89
BRIEF COMMUNICATIONS		
I. A. Kozlov: On the Internal Reflection Coefficient of Smooth Transitions	121	94
V. A. Senderskiy: Noise Immunity of Quasi-Coherent Detection of PSK Signals	122	95
V. I. Yachevskiy: Influence of Switching Signal Shape on the Switch-On Transient of a Switching Circuit	124	97
I. A. Mamzelev and V. I. Popov: A Push-Pull Gunn Diode Oscillator	126	99
S. F. Sikolenko and V. M. Nemchinov: The Equivalent Circuit of a Field-Effect Transistor with a p-n-Junction for Temperature Drift Calculations	128	101
Yu. I. Potylitsyn: Applicability of the Direct Method in Problems of Nonlinear Network Response to Stochastic Signals	129	103
M. E. Gertsenshtein, V. R. Magnushevskiy and L. G. Solovei: Compensation of the Noncoincidence of the Reference Planes of Series-Connected Four-Poles	131	105
S. K. Savin and A. E. Dorogov: The Optimal Bandwidth of a Two-Circuit Selective Amplifier with Square RF Pulse Plus White Noise Input	133	106
S. A. Suslonov, V. S. Osokin, Yu. P. Sokolov, N. G. Dukhanin, E. V. Mamontov and B. M. Vasil'yev: Wide-Band Dispersion Delay Lines Based on LC Phasing Sections	134	108

PART 1		
TELECOMMUNICATIONS		
Volume 27		
MULTICHANNEL RADIO COMMUNICATIONS		
V.M. Dmitrachenko, P.G. Melnik, A.A. Vizel and V.G. Yampol'skiy: Millimeter-Wave Radio Links Using Pulse-Code Modulation	1	1
I.A. Gusyatinskiy and A.S. Nemirovskiy: A System for Interference Fading Prevention in Troposphere Telecommunications Links	6	7
A.I. Rakov and G.G. Kudryavtsev: Estimate of the Reliability of Radio Relay Communication Links	10	13
TELEGRAPHY		
V.I. Grigor'ev: Ensuring Required Service Quality in Direct Connection and Telex Networks	13	16
S.T. Malinovskiy, P.V. Bershteyn, V.A. Shaposhnikov and I.B. Tsareva: Measurement of the Load in the Channel Switching Stations of the Automatic Telegraph Network	17	20
AUTOMATIC SWITCHING		
L.Ya. Muslovin: A System of Quasi-Electronic Automatic Telephone Offices (ATO)	20	25
K.A. Tatsis: Some Peculiarities of the Very-Long-Range Propagation of Ultrashort Waves and Television Interference	30	45
COMPONENTS AND CIRCUITS FOR TELECOMMUNICATIONS TECHNOLOGY		
L.Ya. Lipkin and A.A. Shishkov: A Digital Demodulator of Differential PSK Signals	32	47
R.M. Khrennikova: A Circuit for Protecting Transistor Amplifiers from Extraneous Currents	36	51
Z.I. Ismailov and G.R. Rakhimov: A Simple Wideband Frequency Divider	40	55
GENERATION, AMPLIFICATION AND TRANSFORMATION OF SIGNALS		
M.N. Boychuk, N.E. Zayanchukovskaya, Yu.D. Krisilov and L.I. Yancheva: Maximum Gain of RC-Coupled, Cascaded FET Amplifiers	42	57
F.V. Shchepetkin and Yu.S. Danich: Noise Properties of a Transistor Amplifier in the Decimeter Band	45	60
CONTROL AND MEASUREMENTS IN COMMUNICATIONS ENGINEERING		
G.M. Mikirtichan, V.P. Kutasevich and V.L. Savel'ev: Semiconductor Level Meter IUP-2.5	50	66
I.I. Garkusha: Search for Defects in Complex Controlled Systems	55	71
A.N. Mutafi and A.A. Fadeev: Measurement of Intermodulation Distortion in the Presence of External Interference	58	74
PART 2		
RADIO ENGINEERING		
Volume 28		
V.F. Komarovich and V.N. Sosunov: Correlation of Random Noise Levels in Short-Wave Radio Channels	61	1
V.G. Gurevich and B.V. Malanov: The Scope for Doppler Meters with Spectrum Compression	66	9
B.I. Shakhtarin and B.F. Vorob'yev: Sync Failures in a PAFC System	71	16
I.E. Varakin and L.N. Volkov: The Correlation Properties of Segments of M-Sequences	77	23

	Page English	Russian
Z.S. Karamov and A.F. Fomin: Estimation of the Noise Immunity of Pulse Systems for Continuous Message Transmission Taking into Account Quantization and Interpolation Errors	81	29
V.I. Nazarov: Error Probability When Data and Sync Signals are Separated by Frequency Multiplication	86	36
A.G. Ramm: Optimal Harmonic Synthesis of Generalized Fourier Series and Integrals with Randomly Perturbed Coefficients	92	44
B.M. Bogdanovich: Reduction of Nonlinear Distortion in a Four-Terminal Network with Slight Nonlinearity	97	50
G.A. Degtyar and E.I. Masharskiy: The Design of Oscillatory Systems Based on Sections of Coupled Lines	103	58
Yu.L. Khotuntsev and O.F. Shakhno: Regenerative Amplifiers Synthesis Using Isoextremal Approximation of the Amplitude-Frequency Response	107	64
A.A. Medvinskiy: The Influence of Phase Response Nonlinearity in the RF Channel of an FM Receiver on Signal Distortion	113	72
Z.M. Lifshits and V.A. Tserevitin: High-Power Transmitter Tubes for SSB Signal Amplification	119	81
V.A. Kudryavtsev, S.A. Babayev and B.I. Bakhtin: A Functional Method for the Computerized Design of Printed Circuit Plates	122	85
BRIEF COMMUNICATIONS		
D.I. Popov: Threshold Signals in Moving Target Selection Systems with Amplitude Limiting	122	90
K.N. Shchelkunov: Design of Systems for Message Transmission over Parallel Optical Channels	124	92
N.P. Khvorostenko: Estimation of the Noise Immunity of Incoherent Demodulators	126	94
E.N. Nikolayev: Calculation of the Combination Component Frequencies and Orders at the Output of a Nonlinear Network with Semi-Harmonic Input Signal	128	96
V.V. Klimov: Electronic Pulse Switches Which Store the Control Signal	131	105

Number 3

Volume 27

COMMUNICATION SYSTEMS AND NETWORKS		
M.U. Polyak: The Future Development of Communications Systems with Switching of Digital Data Flow	1	1
V.S. Baranov, I.M. Butlinskiy and N.E. Lugovskoi: VLT-1920 Coaxial Cable Multichannel Communications Apparatus	7	10
A.V. Kogan: Determination of the Transient Parameters in a Regulator Circuits	8	16
ANTENNA-FEEDER DEVICES		
G.Z. Ayzenberg and V.N. Uryadko: Pneumatic Antennas	12	21
G.P. Petin: Characteristics and Parameters of a Wideband Transformer	15	26
MULTICHANNEL RADIO COMMUNICATIONS		
V.A. Polukhin and E.I. Kumysh: Distribution of Phase Correcting Circuits in the HF Channels of Television Trunk Lines of Radio Relay Links and of Satellite Communication Links	19	30

	Page English	Page Russian
V.F. Kuz'min and V.M. Rozov: Estimation of the Power Characteristics of a Linear Amplifier with Automatic Control of Operation	25	36
AUTOMATIC SWITCHING AND TELEPHONY		
M.M. Podvidz and Fan Gen-Lin: Switching Structure of Quasi-Electronic Automatic Telephone Offices	29	41
E.B. Ershova and V.A. Ershov: Consideration of Signal Resolution Criteria in the Synthesis of Control Equipment for Integrated Central Selection Stations (ICSS)	35	47
V.I. Kulya and V.G. Fisher: Adaptive Recognition of Vowels on the Basis of the New Theory of Phonetic Coding of Speech	39	51
V.N. Sobolev and R.D. Leytes: An Effective Method for Improving the Naturalness of Compressed Speech	42	55
COMMUNICATIONS LINES		
K.K. Nikol'skiy, O.A. Lunev, Z.S. Verina and K.M. Tret'yakova: Corrosion Protection of the Crimped Steel Jackets of MKSSP-Type Cables	48	60
R.K. Parfenova, Yu.A. Parfenov and E.D. Li: Transmission of DC Remote Control Signals Through Overhead Communications Lines	50	62
DATA TRANSMISSION		
K.A. Brusilovskiy: Reconstruction of the Statistical Structure of a Discrete Signal	52	65
A.L. Marimont and P.Ya. Nudel'man: A Formula for the Error Probability in a Digital Data Transmission System	55	68
V.N. Korshunov: Data Transmission During Pauses in Telephone Conversation	59	72
SIGNAL TRANSMISSION THEORY		
N.T. Petrovich, A.S. Sukhorukov and E.A. Chuiko: A Method for the Reception of Fading Differential Phase-Shift Keyed (DPSK) Signals at Low Data Rates	60	74
PART 2 RADIO ENGINEERING Volume 28		
B.E. Petrov: Application of the Harmonic Balance Method to Radio Engineering Problems	67	1
V.B. Braude: Spectral Analysis of Pulsed Optical Signals as Applied to the Synchronization of PCM Laser Links	71	7
A.N. Yu'Yev: Accuracy of Estimating Target Angle by the Maximum Likelihood Method in a Correlation Noise Background	75	12
V.M. Danilenko: Noise Immunity of Optimal Incoherent Reception of an FM Signal in the Presence of Sync Channel Fluctuations	78	17
D.D. Nasledov: Noise Immunity of Incoherent Reception in a Multipath Fading Channel	82	22
A.P. Bilenko and V.I. Nikolayev: Distortion of Ground-Wave Line-of-Sight VHF Pulse Signals	87	29
V.I. Vol'man: Analysis of EH-Inhomogeneities and Singular H-Inhomogeneities in a Rectangular Waveguide	90	34
G.K. Galimov: A Two-Mirror Antenna with Polar Diagram Scanning Through Ninety Degrees	95	41
Yu.M. Bruk: The Structure and Properties of a Phased Array with a Minimum Number of Switched Elements	99	46
V.M. Bogachev and S.M. Smol'skiy: The General Truncated Equations and Characteristic Equation of a Transistor Oscillator	102	51
G.M. Krylov: The Relationship Between Control Range and Bandwidth Variation in a Controlled Amplifier with Nonlinear	103	60

	Page English	Russian
V.A. Baramidze: Self-Stabilized Power Amplifiers with Combination Negative Feedback	107	66
N.M. Ashimov: The Tetristor — a Controlled Four-Electrode p-n-p-n Device	111	72
A.Z. Khaikov: The Optimum Electron Bunching Modes in Multiresonator Klystrons	114	77
V.E. Kitayev and B.V. Gorbachev: A Hybrid Continuous-Switching Type DC Voltage Stabilizer	120	85
V.I. Gorodetskiy: Decoder Reliability in the Case of Sudden Failures	124	91
BRIEF COMMUNICATIONS		
V.V. Vodop'yanova: Noise Immunity of FSK Signal Reception in Channels with Continuous Multipath Properties	128	97
P.Ya. Nudel'man: On the Necessary and Sufficient Conditions for the Physical Realizability of Transmission Functions	131	100
S.A. Kostylev and I.I. Sokolovskiy: Tuning of Gunn Oscillators by an Electrically Controlled Capacitance	133	102
M.L. Leinov: On the Optimum Pulse Duration in Frequency Multipliers	134	103
A.I. Geren, V.A. Krestov and A.A. Nikolayev: High-Power Metal-Ceramic Tasitrons	136	105
FOR THE ENGINEER		
Yu.V. Panaseikin, L.L. Rybkin and R.G. Stepanyan: A Method of Measuring Microwave Signal Phase	138	108

Number 4

PART 1
TELECOMMUNICATIONS
Volume 27

MULTICHANNEL WIRE COMMUNICATIONS		
V.D. Moskvitin, N.E. Popova and K.A. Sil'vinskaya: Correction System for Group Transmission Lines and Broadband Channels	1	3
V.I. Petrov and A.Yu. Tsym: Mutual Interaction between the K-60 and IKM-120 Systems When Operating Over a Single Cable	7	12
M.Z. Petrova and R.I. Shenderov: Speech Signal Transmission Quality in Companded Delta-Modulation Channels	10	16
DATA TRANSMISSION AND TELEGRAPHY		
V.A. Grebennikov, V.N. Sarayev, I.S. Usov, L.A. Cherkasov, A.I. Shtul'man and L.I. Yaroslavskiy: Methods of Data Transmission over Digital Channels	15	22
V.I. Korol: The Effective Psophometric Voltage When Transmitting Text by Direct Telegraphy	22	29
TELEVISION		
E.S. Glazman and A.A. Vorobyev: Modulation Distortions in Television Transmitters	25	33
POWER SUPPLIES		
B.A. Romanov: Thyristor Devices for Controlling Radio Transmitter Rectifiers	33	43

	Page English	Russian
S.D. Dodik and V.I. Shtil'man: Composite Transistors with Complementary Symmetry and Their Use in Voltage Stabilizers and Filters	39	50
V.E. Kitayev and Yu. A. Tsekhanovich: Design of Smoothing Filters for Rectangular Voltages	43	54
CIRCUIT THEORY AND FILTERS		
B.A. Lapshin: Antimetric Electrical Filters with Series-Parallel Structure	45	56
O.V. Alekseyev and G.A. Groshev: Synthesis of a Class of Multipole Frequency-Separation Filters	49	60
G.I. Levitan: Narrowband Filters with Chebyshev Group Delay Time Characteristic	54	65
PART 2 RADIO ENGINEERING Volume 28		
E.P. Popechitelev: Noise Fluctuations of Chrominance in Color Television	59	1
I.P. Yudenkov: Noise Immunity of a Sinusoidal Signal Detector Which Employs Information on the Zero-Crossing Instants	62	6
A.V. Mikhailov: The Joint Probability Density of Crosstalk and White Noise in Data Transmission Channels Subject to Fading	66	12
V.M. Osipenkov, E.L. Bachinina and A.L. Fel'dshtein: Aspects of Lossy Microwave Filter Design	70	25
B.A. Yufryakov: Semilogarithmic Amplitude-Frequency Responses of Comb Filters	74	31
I.M. Simontov and V.V. Romanov: Nonlinear Distortion of a Cascade Connection of Four-Poles	76	34
B.E. Petrov: Application of the Harmonic Balance Method to Radio Engineering Problems. Part II	80	39
V.Z. Pruslin: On Efficient Output Power Utilization of a TWT	83	50
Yu.V. Kartavykh: The Error in Integrating Voltage Pulses of Arbitrary Shape	86	60
S.I. Evtyanov and V.N. Kovalev: Reduction of the Spread of Gain by Means of a Shunt	89	64
I.I. Livshits: Influence of the Type of Transmitted Information on the Energy Parameters of an Amplifier	91	68
V.F. Lubentsov: The Errors of the Absolute Method for Measuring Difference-Signal Frequency	96	74
O.E. Antonov, Yu. I. Zhodzishkiy and M.B. Filimonov: Measurement of an Arbitrarily Varying Phase by a Square-Law Detector with Weighted Integration	99	79
BRIEF COMMUNICATIONS		
V.L. Byalik: Photoelectron Statistics and the Calculation of Optical Communication Link Characteristics	103	86
V.A. Grebennikov: Digital Signal Distortion Due to Random Initial Phase in the Case of ASK, PSK, or FSK of a Square Carrier	105	87
N.M. Malyarevskiy: A Method for Investigating the Noise Immunity of Detection Systems	107	90
P.F. Polyakov and A.A. Mits: Distortion of the Correlation Functions of M-Sequences in an Ideal Linear System	110	93
S.K. Savin: Approximation of the Characteristics of Nonlinear Elements by the Method of Means	113	95
K.P. Gordiyenko: Synthesis of a Wide-Band Negative Impedance	115	99
V.N. Repinskiy: Amplitude-Phase Conversion in the Nonlinear Capacitance of a Varactor Diode Frequency Multiplier	118	102
V.I. Yachevskiy: Sensitivity of a Current Switch with a Tunnel Diode in the Collector Circuit of one Transistor	120	104

Number 5

PART 1 TELECOMMUNICATIONS Volume 27		
COMMUNICATIONS SYSTEMS AND NETWORKS		
L.Ya. Kantor, V.A. Polukhin and N.V. Talyzin: New Relay Stations of the Orbita-2 Satellite-Communications System	1	1
A.M. Zayezdniy, V.A. Zaitsev and A.D. Kropivnitskiy: Multichannel Communications Systems with Structured-Signal Parametric Filters	7	9
M.I. Belogiazov: Effectiveness of a Communication System with Automatic Interrogation	12	16
MULTICHANNEL WIRE COMMUNICATIONS		
A.D. Taranenko, V.G. Plotnikov and L.Sh. Khabad: The MT-6 Equipment for Multiplexing Radio Channel Connecting Links	13	18
TELEVISION		
V.G. Makaveyev, K.O. Zagorovskiy and E.S. Klimovich: Rational Design of a Television System of Complex Structure	17	22
G.B. Babuk and G.M. Finogeyev: Horizontal Synchronization of a Television Receiver Offset Carrier Frequencies (OCF)	20	27
TELEGRAPHY		
T.A. Koloskova: Statistical Analysis of Formats of the Address Part of Telegrams	30	41
PROPAGATION OF ELECTROMAGNETIC OSCILLATIONS		
I.I. Grodnev, I.Ya. Shul'ga and V.P. Chupik: Electromagnetic Field of a Twisted Cable Circuit	33	45
COMPUTER APPLICATIONS IN COMMUNICATIONS TECHNOLOGY		
S.A. Osmolovskiy and V.E. Monakhov: A System for Automatic Modelling of Electric Networks	37	49
SIGNAL GENERATION AND TRANSFORMATION		
L.A. Belov, V.B. Barabanov and V.N. Kochemasov: A System for the Automatic Control of the Linear Time Dependence of Frequency Modulation	42	54
B.V. Drozdov: The Accuracy of Detection of Pulse-Width and Pulse-Time Modulated Signals	46	59
V.M. Vasilevskiy: Correction of the Modulation Characteristic of FM Oscillators Using Varactors	50	64
D.M. Shcherbina: Phase Detector Using a Photoresistor with a Sinusoidally Varying Conductance	54	68
PART 2 RADIO ENGINEERING Volume 28		
V.S. Andreyev and V.I. Popov: Prospects for Improving the Efficiency and Power of Gunn Microwave Oscillators	58	2

	Page English	Page Russian
N.G. Gatkin, M.I. Karnovskiy, L.G. Krasnyi and I.I. Shner: Space-Time Processing of Noisy Signals	64	9
M.V. Maksimov: Effect of Noise on Single-Balance and Double-Balance Converters in Continuous-Wave Radar Stations	69	17
A.V. Belous: Application of the Method of Equivalent Nonlinear Systems to the Analysis of the Noise Immunity of FM Tracking Receivers	73	23
A.P. Rodimov, G.V. Stogov and A.L. Marimont: Influence of Intersymbol Interference on the Fidelity of Signal Separation	78	30
V.I. Kapustyan: An Approximate Transmission Function for Active Distributed RC Networks	83	37
V.S. Prasolov: Optimal Matching by Means of Band-Pass Filters	87	42
A.L. Aizenberg and B.V. Shatokhin: Influence of a Statistically Uneven Underlying Surface on the Radiation Characteristics of a Phased Antenna Array	92	49
A.N. Bruyevich: Calculation of the Current of a Nonlinear Element with Delay Properties and Biharmonic Input Signal	96	55
V.M. Katushkina and Z.I. Model': Efficiency of the Bridge Method of Adding HF Generator Powers	102	63
L.N. Rudnev and Ya.D. Shirman: Sensitivity and Resolution of Panoramic Analyzers	105	68
BRIEF COMMUNICATIONS		
V.P. Pershikov: Reduction in Mean Directivity of an Aperture Antenna when Illuminated by Cross-Polarized Radiation	109	78
V.K. Marikodov: Criteria for Assessing the Effectiveness of Signal Preemphasis	110	79
E.V. Borisov and Yu.L. Simonov: The Choice of Bandwidth for a Tuned Circuit Matching a Feeder to a Load	113	82
E.G. Golubev: Random Phase Correlation of Frequency Diversity Signals	114	85
V.A. Vlasenko, B.I. Davydov and Yu.K. Filipskiy: Transients in Frequency Detectors	117	89
D.V. Igumnov: An Optron Circuit with Increased Output Voltage	119	91
A.M. Davydov: Correlation Coefficient of Frequency Diversity Signals in a Two-Path Channel	120	93
V.S. Khovratovich: Determination of the Partial Capacitances of Multiwire Transmission Lines with TEM Waves	121	94
V.S. Kosterev: Design of a Transistor Relaxation Oscillator, Temperature-Stabilized by a Varactor Diode	125	101

ANTENNA-FEEDER DEVICES

A.A. Metrikin, B.S. Nadenenko and G.P. Polushin: A Feeder Line of Bimetallic and Elliptical Waveguides for Radio Relay Communications	1	1
V.D. Kuznetsov: Reflections in Television Transmitting Antennas	7	9
A.A. Voevodin: Construction and Application of Ballistic Antennas	11	14
B.G. Klimov, G.M. Torlin and V.A. Sheremet: Elimination of Crosstalk Generated in Multichannel Systems	14	27
DATA TRANSMISSION		
V.A. Loginov, I.S. Boronina and Z.N. Zhil'tsova: Efficiency of Communication Standby Equipment in a Data-Transmission System with Message Switching	18	32

	Page English	Russian
S. B. Kleibanov and D. A. Tsirel'son: Optimum Tuning of a Corrector of Data-Transmission Signals	22	37
N. P. Bobrov, N. N. Ol'shevskiy, V. F. Kotlov and V. G. Vershkova: Measurement of Reduced Frequency Characteristics of Telephone Channels	28	43
COMPONENTS AND CIRCUITS FOR COMMUNICATIONS TECHNOLOGY		
E. S. Burunsuzyan and S. G. Khalpakhchyan: The Parametron as a Phase Indicator	31	46
B. M. Bogdanovich and N. I. Okulich: Single-Element Nondistorting Attenuation Regulators	34	50
V. A. Yisaykin and V. V. Maslennikov: Selective RC-Amplifiers for Frequency Doublers	41	57
SIGNAL TRANSMISSION THEORY		
N. I. Smirnov: Channel for Rapid Synchronization of a Multiple-Address System with Code Separation	43	60
S. G. Avetisyan: Optimum Relationship between the Duration of a Composite Signal and Its Maximum Deviation	51	68
B. I. Kuvshinov: Comparative Noise Immunity of Binary and M-ary (M > 2) Digital Data Transmission Systems	53	70
PART 2 RADIO ENGINEERING Volume 28		
V. M. Rozo and V. I. Nosov: Regeneration Efficiency at a Short-Wave Radio Communications Repeater Station	55	10
S. A. Belevitin, V. S. Kotov and Yu. V. Lipatov: Spectra of Signals with Functional Phase Modulation in Pulse Frequency Synthesizers	60	17
Z. S. Karamov and A. F. Fomin: Estimate of the Noise Immunity of Pulsed Continuous-Data Transmission Systems Taking Quantization and Interpolation Errors into Account. Part II	64	24
V. A. Sviridenko: Noise Immunity of Digital Methods of Transmitting Analog Data with Increased Information Content	69	31
E. P. Dement'yev: The Theory of Linear Noisy Circuits	73	35
S. M. Gol'din and G. N. Morozova: Approximation of the Characteristics of Four-Terminal Networks with Complex Nonlinearity	76	40
G. A. Kliger: Analysis of Shunt Dipoles	82	48
A. V. Mel'nikov and A. A. Lemanskiy: Error Signal of a Scanning Antenna with a Sum-Difference Radiation Pattern	86	53
M. E. Mazurov and B. A. Goncharov: Hall-Effect Multiplier with Magnetic-Field Negative Feedback. Part I	92	60
A. Z. Zavodovskiy and K. A. Shchutskoi: Analysis of a Tuned Amplifier with Stagger-Tuned Input and Output Circuits	96	66
Zh. A. Sarkisyan and R. N. Simonyan: A Broadband Metal Rotator of the Plane of Polarization	98	69
I. A. Suslov: Approximate Calculation of the Transient Response Parameters for Two Dominant Poles	99	70
V. P. D'yakonov: Methods of Constructing Low-Voltage Pulsed Avalanche Devices	104	77
A. I. Viches: Estimate of the Phase Distortions Which Occur in the Magnetic Recording of Signals with High-Frequency Superposed Magnetization	108	83
BRIEF COMMUNICATIONS		
B. S. Gol'dberg and G. S. Eidus: Autocorrelation Function on a Pulsed Radio Signal with Elliptic Frequency Modulation	114	90
V. D. Shevelenko and V. I. Kutuzov: Some Dynamic Characteristics of Pulse Spectra	115	92

	Page English	Russian
L.N. Morgunov: Distribution of the Axis-Crossing Intervals of the Envelope of the Sum of a Sinusoidal Signal and Normal Noise	117	93
Fam Van Dyung: A New Proof of the Formula for Expanding the Determinant of a Double Signal Flow Graph	119	95
